## INDEPENDENT AUDITORS' REPORT

To the Board of Education  
Naples Central School District  
Naples, New York

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Naples Central School District (the District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Naples Central School District, as of June 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

### *Change in Accounting Principle*

As discussed in Note 1 and Note 16 to the financial statements, the District adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*, during the year ended June 30, 2021. Our opinions are not modified with respect to this matter.

### *Required Supplementary Information.*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 11 and budgetary comparison schedule - general fund on page 42, and schedule of changes in the District's total OPEB liability and related ratios on page 43, schedule of District's proportionate share of the net pension assets/liabilities on page 44 - 45, schedule of employers contribution for pensions on page 46 - 47 and and notes to required supplementary information on page 48 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Naples Central School District basic financial statements. The other supplementary information listed on the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by *Title 2 U.S Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated October 7, 2021, on our consideration of the Naples Central School District's internal control over financial reporting and on our tests of its compliance with certain provisions of law, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Naples Central School District's internal controls over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Naples Central School District's internal control over financial reporting and compliance.

**NAPLES CENTRAL SCHOOL DISTRICT  
Management's Discussion and Analysis  
For the Year Ended June 30, 2021**

---

The following is a discussion and analysis of the Naples Central School District's (the "District") financial performance for the fiscal year ended June 30, 2021. This section is a summary of the District's financial activities based on currently known facts, decisions or conditions. It is also based on both the district-wide and fund-based financial statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. This section is only an introduction and should be read in conjunction with the District's financial statements, which immediately follow this section.

**FINANCIAL HIGHLIGHTS**

- Total district-wide general revenues, excluding charges for service and operating grants for the 2020-2021 year were \$20,699,031, or 95% of all revenues. This amount represents an increase of \$641,358 in general revenues over the 2019-2020 year of \$20,057,673. The 2019-2020 general revenues as a percent of total revenues was 94%. Of the total general revenues, state sources accounted for \$8,153,880, real property tax and real property tax items accounted for \$12,159,261, and other sources accounted for \$385,890 for the 2020-2021 fiscal year ended.
- Total district-wide expenses for the 2020-2021 year were \$21,508,183. These expenses were offset by program revenues that included \$39,568 in charges for services and \$1,124,468 in operating grants and contributions. The net cost for governmental activities that was ultimately financed by general revenues was \$20,344,147, which represents a decrease of \$222,180 from the 2019-2020 year.
- During the current fiscal year, the District was able to fund the mandatory contribution to the New York State Employee's Retirement System and Teacher's Retirement System (the "Systems") without the need to finance the payments. The total current year contributions to the systems were \$824,483, which is an increase of \$43,444, or 5.6%, over the 2019-2020 amount of \$781,039. The District has recorded a net pension liability for ERS of \$5,660 and \$1,520,086 as of June 30, 2021 and 2020, respectively. The District has also recorded a net pension liability for TRS of \$990,746 and a net pension asset for TRS of \$924,278 as of June 30, 2021 and 2020, respectively.
- Total District capital assets - net of depreciation decreased by \$713,886 to \$34,763,965 in the 2020-2021 year as compared to \$35,477,851 in the 2019-2020 year. Total long-term liabilities decreased by \$5,340,716 to \$50,667,176 in the 2020-2021 year from \$56,007,892 in the 2019-2020 year.
- For the year ended June 30, 2021, the District implemented GASB No. 84, Fiduciary Activities. The objective of this statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how these activities should be reported.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of five parts: management's discussion and analysis (this section), the basic financial statements, required supplementary information, other supplementary information and single audit reports. The basic financial statements include two kinds of statements that present different views of the District:

The first two statements are district-wide financial statements that provide both short-term and long-term information about the District's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements. The fund financial statements concentrate on the District's most significant funds with all other non-major funds listed in total in one column. For the fiscal year ended June 30, 2021, all of the District's governmental funds were considered major.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

### **District-Wide Statements**

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

These two statements report the District's net position and changes in those assets. The change in net position provides the reader with a tool to assist in determining whether the District's financial health is improving or deteriorating. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the District's property tax base, student enrollment growth, required educational programs, and facility conditions in arriving at their conclusion regarding the overall health of the District.

In the statement of net position and the statement of activities, the District reports governmental activities. Governmental activities are the activities where most of the District's programs and services are reported including, but not limited to: general support, instruction, pupil transportation, employee benefits, debt interest and the school lunch program. The District does not have any business-type activities.

The government-wide financial statements can be found on pages 12 and 13 of this report.

### **Fund Financial Statements**

The fund financial statements are on pages 14 through 17 and provide more detailed information about the District's funds. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by State law and by bond covenants. The District establishes other funds to control and to manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as Federal grants). The emphasis of the fund financial statements is on the major funds. For the 2020-2021 year, the District reports six major funds; the general fund, the school lunch fund, the special aid fund, the miscellaneous special revenue fund, the capital projects fund and the debt service fund.

In the fund financial statements, capital assets are reported as expenditures in the year of acquisition and therefore no capital assets are reported. The issuance of debt is recorded as a financial resource. The current year's payments of principal and interest on long-term obligations are recorded as expenditures. Future year's debt obligations are not recorded.

**Governmental Funds** - All of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or less financial resources available to spend in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds are reconciled in the basic financial statements. Activities in these funds and reconciliations to district-wide financial statements are reported on pages 14 through 17.

In Table 5, we have presented the cost of each of the District's functions and programs, as well as each function's net cost (total cost less revenues generated by the activities). Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

**THE SCHOOL DISTRICT'S FUNDS**

Fund financial statements are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues and other financing sources of \$26,441,182 and \$27,342,047 and expenditures and other financing uses of \$25,076,109 and \$24,328,287 in 2021 and 2020, respectively. The fund balance in the general fund increased by \$1,643,107 and \$1,435,707 in 2021 and 2020, respectively. The school lunch fund balance increased by \$51,408 in 2021 and had no change in 2020. The special aid fund balance had no change in 2021 and 2020. The miscellaneous special revenue fund had an increase in fund balance of \$9,286 in 2021. The capital projects fund fund balance had an decrease in fund balance of \$243,057 in 2021 and a increase of \$1,725,719 in 2020. The debt service fund reported a decrease of \$95,671 and \$147,666 in 2021 and 2020, respectively. Total governmental fund balance increased by \$1,365,073 and by \$3,013,760 for the 2020-2021 fiscal year and 2019-2020 fiscal year, respectively.

**GENERAL FUND BUDGETARY HIGHLIGHTS**

The 2020-2021 general fund's actual revenue was \$21,011,929. That amount is below the original estimates of \$21,213,960 and final budget estimates of \$21,404,453. The \$392,524 variance between the final amended budget and the June 30, 2021 actual results was due primarily to higher than budgeted state and federal sources, reducing the need to use appropriated fund balance. Revenue budget comparisons are shown on page 42.

The 2020-2021 actual expenditures of the general fund were \$19,216,194, which is below the original budget of \$21,033,960 and below the final budget estimate of \$20,348,453. The \$1,132,259 variance between the final amended budget and the June 30, 2021 actual results was due to a change in budgeted plans for the hiring of instructional staff including the related benefits. Expenditure budget comparisons are shown on page 42.

The general fund's fund balance increased by \$1,643,107 to \$10,404,743. The District's general fund balance is classified in five categories including nonspendable, restricted, committed, assigned and unassigned. For the fiscal year ended June 30, 2021, the District has \$7,823,546 classified as restricted, \$371,350 as assigned and \$2,209,847 as unassigned. More information regarding the District's specified reserves can be found on pages 24 - 27.

**CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital Assets**

At the end of fiscal years 2021 and 2020, the District had \$49,267,317 and \$48,789,523 invested in land, buildings and renovations, buses, and furniture and equipment. Depreciation expense of \$1,406,609 and \$1,267,019 has been recorded in 2021 and 2020. The net book value at June 30, 2021 and 2020 was \$34,763,965 and \$35,477,851, respectively.

Table 6 shows the fiscal 2021 and 2020 balances for the major classes of assets:

Additional information on the District's long-term debt can be found in Notes 1 and 5 beginning on pages 21 and 29 of this report.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The general fund budget for the 2021-2022 school year was approved by the voters in the amount of \$21,734,527. This is an increase of 2.45% over the previous year's budget.

The 2021-2022 budget is impacted by certain trends impacting school districts. These include increases in retirement contributions and health insurance costs. COVID-19 has caused unexpected costs which are expected to continue into the 2021-2022 school year. The District is maintaining a cautious approach with spending to ensure financial security for this, and future years.

The New York State Legislature introduced and approved a property tax cap beginning in the 2012-2013 school year. This bill limits tax levy growth to the lesser of two percent or the annual increase in the CPI. Limited exemptions to exceed the levy cap are provided for taxes needed to pay for voter-approved capital expenditures, pension rate increases, court orders and torts over five percent of the prior year's levy. If the tax levy proposed to the voters is within the district's tax levy cap, then a majority vote would be required for approval. If the proposed tax levy exceeds the district's tax levy cap, the threshold required for approval would be 60% of the vote. A school district that does not levy an amount up to the cap in any one year would be allowed to carry over unused tax levy capacity into future years.

The United States is presently amid a national health emergency related to the COVID-19 virus. The overall consequences of COVID-19 on a national, regional, and local level are unknown, but has the potential to result in a significant economic impact. The impact of this situation on the District and its future results and financial position is not presently determinable.

While there are stimulus funds available to school district's, the funds can only be used to offset COVID related expenses such as addressing learning loss, health and safety items related to COVID, and social and emotional hardships caused by COVID. Stimulus funds will not be applicable to everyday expenses the District is responsible for and therefore, the District is budgeting with that in mind.

| <p>Amounts reported for governmental activities in the statement of activities are different because:</p> <p>Governmental funds report capital outlays as expenditures. However, in the statement of activities, the costs of those assets are allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are the following:</p> |                    |                          |
| Capital outlay  | \$ 692,723         |                          |

**Note 1. Summary of Significant Accounting Policies**

The financial statements of Naples Central School District, (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units (hereinafter referred to as generally accepted accounting principals ("GAAP")). The Government Accounting Standards Board ("GASB") is the accepted standard setting body for establishing government accounting and financial reporting principles. The following is a summary of significant accounting policies and reporting practices of the District.

**A. Reporting Entity**

The reporting entity of the District is based upon criteria set forth by GASB Statement No. 14, *Defining The Financial Reporting Entity*, and Statement No. 61, *The Financial Reporting Entity: Omnibus*. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the District and other organizational entities determined to be includable in the District's financial reporting entity. The District is not a component unit of another reporting entity. The decision to include a potential component unit in the District's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief description of certain entities included in the District's reporting entity.

**1. Extra Classroom Activity Funds**

The extra classroom activity funds of the District represent funds of the students of the District. The Board of Education exercises general oversight of these funds. The extra classroom activity funds are independent of the District with respect to its financial transactions and the designation of student management. Separate audited financial statements (cash basis) of the extra classroom activity funds can be found at the District's business office. The District accounts for assets held as an agent for various student organizations in a miscellaneous special revenue fund, in accordance with GASB Statement No. 84, *Fiduciary Activities*.

**B. Joint Venture**

The District is a component district in the Wayne County Finger Lakes Board of Cooperative Educational Services (BOCES). A BOCES is a voluntary, cooperative association of school districts in a geographic area that shares planning, services, and programs which provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

BOCES are organized under §1950 of the New York State Education Law. A BOCES Board is considered a corporate body. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of §1950 of the New York State Education Law. All BOCES property is held by the BOCES Board as a corporation (§1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n(a) of the New York State General Municipal Law.

A BOCES budget is comprised of separate budgets for administrative, program and capital costs. Each component district's share of administrative and capital cost is determined by resident public school district enrollment, as defined in the New York State Education Law, §1950(4)(b)(7). In addition, component districts pay tuition or a service fee for programs in which its students participate.

**C. Basis of Presentation**

**1. District-Wide Statements**

The statement of net position and the statement of activities present information about the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, state aid, intergovernmental revenues, and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include charges paid by the recipients for goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. Indirect expenses, principally employee benefits, are allocated to functional areas in proportion to the payroll expensed for those areas.

**2. Fund Financial Statements**

The fund statements provide information about the District's funds. Separate statements for each fund category are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. The District reports the following funds.

**a. Major Governmental**

- i. **General Fund** - This is the District's primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund. The general fund is always reported as a major fund.
- ii. **School Lunch Fund** - This fund is a special revenue fund that accounts for transactions of the District's lunch, breakfast and milk programs.
- iii. **Special Aid Fund** - This fund is a special revenue fund that accounts for the proceeds of specific revenue sources, such as federal and state grants, that are legally restricted to expenditures for specified purposes.
- iv. **Miscellaneous Special Revenue Fund** - This fund is used to account for funds utilized for extraclassroom and scholarship activities at the District.
- v. **Capital Projects Fund** - This fund is used to account for the financial resources used for acquisition, construction, or major repair of capital facilities.
- vi. **Debt Service Fund** - This fund accounts for the accumulation of resources and the payment of principal and interest on long-term obligations for governmental activities.

**D. Measurement Focus and Basis of Accounting**

**1. Accrual**

The District-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied or earned. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

**2. Modified Accrual**

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 90 days after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

**3. Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of encumbrances, compensated absences, potential contingent liabilities and useful lives of long-lived assets.

**4. Cash and Investments**

The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. New York State law governs the District's investment policies. Resources must be deposited in FDIC-insured commercial banks or trust companies located within the State. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities. Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Investments are stated at fair value.

**5. Accounts Receivable**

Accounts receivable are stated at net realizable value. No allowance for uncollectible accounts has been provided due to the fact that management believes that such allowance would not be material.

**6. Due To/From Federal, State and Other Governments**

The District reports amounts due from federal, state and other governments, which consisted of funds claimed but not received from various state, federal and other governmental agencies.

**7. Inventories and Prepaid Items**

Inventories of food in the school lunch fund are recorded at cost on a first-in, first-out basis, or in the case of surplus food, at stated value which approximates market. Purchases of inventoriable items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount.

Prepaid items represent payments made by the District for which benefits extend beyond year-end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as assets on the statement of net position or balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of purchase and an expense/expenditure is reported in the year the goods or services are consumed.

**8. Due To/From Other Funds**

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include transfers to provide financing or other services. A detailed description of the individual fund balances at year-end is provided subsequently in these Notes.

**9. Capital Assets**

Capital assets purchased or acquired are reported at historical cost or estimated historical cost. Donated assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following useful lives:

|                            | <b><u>Capitalization<br/>Threshold</u></b> | <b><u>Estimated<br/>Useful Life</u></b> |
|----------------------------|--|---|
| Buildings and improvements | \$ 5,000                                   | 20-40 Years                             |
| Furniture and equipment    | \$ 5,000                                   | 5-20 Years                              |

**10. Accrued Liabilities and Long-Term Obligations**

Payables, accrued liabilities and long-term obligations are reported in the district-wide financial statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgments, other postemployment benefits payable, and compensated absences that will be paid from governmental funds, are reported as a liability in the fund financial statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Long-term obligations represent the District's future obligations or future economic outflows. The liabilities are reported as due within one year or due within more than one year in the statement of net position.

**11. Accounting and Financial Reporting for Pensions**

The District complies with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – Amendment to GASB Statement No. 27* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. The primary objective of the Statements is to improve accounting and financial reporting by state and local governments for pensions. The implementation of the Statements requires the District to report as an asset and/or liability its portion of the collective pension asset and/or liability in the New York State Teachers' and Employees' Retirement Systems. The implementation of the Statements also requires the District to report a deferred outflow and/or inflow for the effect of the net change in the District's proportion of the collective net pension asset and/or liability and difference during the measurement period between the District's contributions and its proportionate share of total contributions to the pension systems not included in pension expense. Included as a deferred outflow is the District contributions to the pension systems subsequent to the measurement date. See Note 8.

**12. Accounting and Financial Reporting for Post Employment Benefits**

The District complies with the provisions of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). See note 9.

**13. Vested Employee Benefits**

The District employees are provided benefits as follows:

- a. **Vacation and Sick Leave** - The District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods. Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Upon retirement, resignation or death, employees may contractually receive a payment based on unused accumulated sick leave. In the governmental fund financial statements only the amount of matured liabilities is accrued within the general fund based upon expendable and available financial resources. These amounts are expensed on a pay-as-you go basis.
- b. **Compensated Absences** - Consistent with GASB Statement 16, *Accounting for Compensated Absences*, the liability has been calculated using the vesting/termination method and an accrual for that liability is included in the District-wide financial statements. The compensated absences liability is calculated based on the pay rates in effect at year end. In the fund statements, only the amount of matured liabilities is accrued within the general fund based upon expendable and available financial resources. These amounts are expensed on a pay-as-you go basis.
- c. **Retirement** - The District provides retirement benefits for substantially all its regular full-time teachers and employees, and its part-time teachers and employees who elect to participate, through contributions to the New York State Teachers' Retirement System (TRS), and New York State and Local Retirement System (ERS), respectively. The systems provide various plans and options, some of which require employee contributions. The retirement systems compute the cost of retirement benefits based on their respective fiscal years: TRS - July 1st to June 30th, and ERS - April 1st to March 31st.

**NAPLES CENTRAL SCHOOL DISTRICT**  
**Notes to Financial Statements**

---

- d. **Post Employment Benefits** - In addition to providing pension benefits, the District provides health insurance coverage and survivor benefits for retired employees and their survivors in accordance with the provision of the employment contracts negotiated between the school district and its employee groups. Substantially all of the District's employees may become eligible for these benefits if they reach normal retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits is shared between the District and the retired employee. The District recognizes the cost of providing health insurance by recording its share of insurance premiums as an expenditure or operating transfer to other funds in the general fund, in the year paid. See Note 9 for additional information.

**14. Budgetary Procedures and Budgetary Accounting**

The District administration prepares a proposed budget for approval by the Board of Education for the general fund. The voters of the District approved the proposed appropriation budget for the general fund on June 9, 2020.

Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances) which may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted.

Budgets are adopted annually on a basis consistent with generally accepted accounting principles. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year. The special revenue funds have not been included in the budget and actual comparison because they do not have legally authorized (appropriated) budgets.

**15. Unearned and Unavailable Revenues**

Unearned revenues arise when resources are received by the District before it has legal claim to them, as when grant monies are received prior to the incidence of qualifying expenditures. In subsequent periods, when the District has legal claim to the resources, the liability for deferred revenues is removed and revenues are recorded.

The governmental fund financial statements report unavailable revenues when potential revenues do not meet both the measurable and available criteria for recognition in the current period. In subsequent periods, when both recognition criteria are met, the deferred inflow of resources is removed and revenues are recorded.

**16. Deferred Outflows and Inflows of Resources**

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District reports a deferred charge on defeased debt resulting from the difference in the carrying value of refunded debt and its reacquisition price, which is amortized over the shorter of the life of the refunded or refunding debt. The District also reports deferred outflows of resources related to the pension plans and OPEB plan in the district-wide statement of net position. The types of deferred outflows of resources related to the pension plans and OPEB plan are described in Notes 8 and 9, respectively.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. The District reports deferred inflows of resources related to cash received before the related revenue is earned and is reported as unearned revenue. The District reports deferred inflows of resources related to the pension plans and OPEB plan which are further described in Notes 8 and 9, respectively.

**17. Restricted Resources**

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these notes.

**18. Net Position and Fund Balance - Reservations and Designations**

**a. District-wide statements**

In the district-wide statements there are three classification of net position:

**Net Investment in Capital Assets** - This component of net position consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows of resources related to those assets as well as unspent bond proceeds.

**Restricted Net Position** - This component of net position is considered restricted if their use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.

**Unrestricted Net Position** - This component of net position consists of all other net position that does not meet the definition of the above two components and is available for general use by the District.

The District will fund outlays for a particular purpose for both restricted and unrestricted resources. In order to calculate the amounts to report as restricted and unrestricted net position in the district-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. When resources are available from multiple classifications, the District spends funds in the following order: restricted, unrestricted.

**b. Fund statements**

The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This Statement improves the usefulness and clarity of fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints place on the purposes for which resources can be used:

- **Nonspendable Fund Balance** - amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact.
- **Restricted Fund Balance** - amounts with constraints placed on the use of resources by creditors, grantors, contributors, or laws or regulations of other governments.
- **Committed Fund Balance** - amounts constrained to specific purposes by a government itself, using its highest level of decision making authority. To be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level of action to remove or change the constraint. For the purposes of the District, the highest level of decision making authority resides with the Board of Education. The District has no committed fund balance.
- **Assigned Fund Balance** - amounts a government intends to use for a specific purpose. Intent can be expressed by the governing body or by an official or body to which the Board of Education delegates the authority.
- **Unassigned Fund Balance** - amounts that are available for any purpose.

**NAPLES CENTRAL SCHOOL DISTRICT**  
**Notes to Financial Statements**

---

For the classification of governmental fund balances, the District considers an expenditure to be made from the budgetary appropriations first when more than one classification is available. The District establishes and modifies fund balance commitments by a passage of a resolution in meetings of the Board of Education. Assigned fund balance is established by the District through adoption or amendment of the budget as intended for specific purposes (such as the purchase of capital assets, construction, debt service or for other purposes). The District's Purchasing Agent is responsible for all the purchasing activities of the District and encumbrances at year end, which are considered assigned funds and therefore, the purchasing agent is designated as having the authority to assign amounts intended to be used for specific purposes. The Board of Education approves the adoption and amendment of the budget and has the authority of final review of all assignments of fund balance. When resources are available from multiple classifications, the District spends funds in the following order: restricted, committed, assigned, unassigned.

The District has implemented a policy in accordance with Real Property Tax Law §1318 which limits the amount of unexpended surplus funds a school district can retain to no more than 4% of next year's budgetary appropriations. Funds properly retained under other sections of law are excluded from the 4% limitation. Under GASB Statement No. 54 classifications, the 4% limitation is interpreted to be the total of committed, assigned, and unassigned classifications, minus the appropriated fund balance, amounts reserved for insurance recovery, amounts reserved for tax reduction and encumbrances included in committed and assigned fund balance. For the year ended June 30, 2021, the District was not in compliance with this policy.

The following is a summary of the District's fund balance classifications and categories within those classifications. Restricted and assigned fund balance categories are available to the District. Any capital gains or interest earned on restricted or assigned fund resources becomes part of the respective restricted or assigned fund balance category. While a separate bank account is not necessary for each restricted or assigned fund, a separate identity for each reserve fund must be maintained.

**A. Nonspendable**

**1. Reserve for Inventory** - Amounts classified as nonspendable for inventory related directly to the amounts reported in the balance sheet - governmental funds as inventory. These reserves are accounted for in the school lunch fund. The balance at June 30, 2021 is \$14,127.

**B. Restricted**

**1. Unemployment Insurance Reserve** - Unemployment Insurance Reserve (GML §6-m) is used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the District elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to pay pending claims may be transferred to any other reserve fund. This reserve is accounted for in the general fund. The balance at June 30, 2021 is \$90,353.

**2. Retirement Contribution Reserve** - Retirement Contribution Reserve (GML §6-r) is used for the purpose of financing contributions to the New York State Local Employee's Retirement System (ERS). The reserve must be accounted for separate and apart from all other funds, and a detailed report of the operation and condition of the reserve must be provided to the Board. This reserve is accounted for in the general fund. The balance at June 30, 2021 is \$1,405,679.

**NAPLES CENTRAL SCHOOL DISTRICT**  
**Notes to Financial Statements**

---

**a. Reserve for Teacher Retirement System** - TRS reserve is used for the purpose of financing retirement contributions to the New York State Teacher's Retirement System. General Municipal Law (GML §6-r) permits school districts to finance retirement contributions to the TRS. The reserve must be accounted for separate and apart from all other funds, and a detailed report of the operation and condition of the reserve must be provided to the Board. The reserve is accounted for in the general fund as a subfund of the reserve for retirement contribution. The balance at June 30, 2021 is \$364,287.

**3. Property Loss Reserve and Liability Reserve** - Property Loss Reserve and Liability Reserve (Education Law §1709(8)(c)) are used to pay for property loss and liability claims incurred. Separate funds for property loss and liability claims are required, and these reserves may not in total exceed 3% of the annual budget or \$15,000, whichever is greater. This type of reserve fund may be utilized only by school districts, except city school districts with a population greater than 125,000. These reserves are accounted for in the general fund. The balance at June 30, 2021 is \$107,106.

**4. Insurance Reserve** - Insurance Reserve is used to pay liability, casualty and other types of losses, except losses incurred for which the following types of insurance may be purchased: life, accident, health, annuities, fidelity and surety, credit, title residual value and mortgage guarantee. In addition, this reserve may not be used for any purpose for which a special reserve may be established pursuant to law (for example, for unemployment compensation insurance). The reserve may be established by Board action, and funded by budgetary appropriations, or such other funds as may be legally appropriated. There is no limit on the amount that may be accumulated in the Insurance Reserve; however, the annual contribution to this reserve may not exceed the greater of \$33,000 or 5% of the budget. Settled or compromised claims up to \$25,000 may be paid from the reserve without judicial approval. This reserve is accounted for in the general fund. The balance at June 30, 2021 is \$114,560.

**5. Tax Certiorari Reserve** - Tax Certiorari Reserve (Education Law §3651.1-a) is used to establish a reserve fund for tax certiorari and to expend from the fund without voter approval. The monies held in the reserve shall not exceed the amount which might reasonably be deemed necessary to meet anticipated judgments and claims arising out of tax certiorari proceedings. Any resources deposited to the reserve which are not expended for tax certiorari proceedings in the year such monies are deposited must be returned to the general fund on or before the first day of the fourth fiscal year after deposit of these monies. The reserve is accounted for in the general fund. The balance at June 30, 2021 is \$193,821.

**5. Employee Benefit Accrued Liability Reserve** - Employee Benefit Accrued Liability Reserve (GML §6-p) is used to reserve funds for the payment of accrued employee benefit due to an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. The reserve is accounted for in the general fund. The balance at June 30, 2021 is \$1,161,598.

**6. Debt Reserve** - Mandatory Reserve for Debt Service (GML §6-l) is used to establish a reserve for the purpose of retiring the outstanding obligations upon the sale of District property or capital improvement that was financed by obligations which remain outstanding at the time of sale. The funding of the reserve is from the proceeds of the sale of District property or capital improvement. The reserve is accounted for in the debt service fund. The balance at June 30, 2021 is \$398,451.

**NAPLES CENTRAL SCHOOL DISTRICT**  
**Notes to Financial Statements**

---

**7. Capital Reserve** - Capital Reserve (Education Law §3651) is used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve fund requires authorization by a majority of the voters establishing the purpose of the reserve; the ultimate amount, its probable term and the source of the funds. Expenditure may be made from the reserve only for a specific purpose further authorized by the voters. The form for the required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education Law. These reserves are accounted for in the general fund. The balance at June 30, 2021 in the capital - acquisition of transportation vehicles is \$294,007 and in the capital - building is \$4,092,135.

**C. Assigned**

**1. Reserve for Encumbrances** - Reserve for encumbrances represents the amount of outstanding encumbrances at the end of the fiscal year. Encumbrance accounting, under which purchase orders, contracts or other commitments for the expenditures of monies are recorded for budgetary control purposes to reserve that portion of the applicable appropriations, is employed in the general, District-wide capital improvement project and non-major funds. Encumbrances are reported as reservations of fund balance since they do not constitute expenditures or liabilities. Expenditures for such commitments are recorded in the period in which the liability is incurred. The balance at June 30, 2021 is \$15,313.

**2. Reserve for School Lunch Fund** - Reserve for school lunch fund represents the remaining assigned portion of fund balance in the school lunch fund. The reserve is accounted for in the school lunch fund. The balance at June 30, 2021 is \$46,687.

**3. Reserve for Miscellaneous Special Revenue Fund** - Reserve for miscellaneous special revenue fund represents the remaining assigned portion of fund balance in the miscellaneous special revenue fund. The reserve is accounted for in the miscellaneous special revenue fund. The balance at June 30, 2021 is \$303,910.

**4. Reserve for Subsequent Year** - Reserve for subsequent year represents the estimated fund balance that is appropriated into the adopted budget. The balance at June 30, 2021 is \$356,037.

**E. Property Taxes**

Real property taxes are levied annually by the Board of Education no later than September 1, and became a lien on August 5, 2020. Taxes are collected during the period September 1 through October 31, 2020. Uncollected real property taxes are subsequently enforced by the Counties of Livingston, Ontario, Steuben and Yates. The Counties pay an amount representing uncollected real property taxes transmitted to the Counties for enforcement to the District no later than the following April 1st.

**Note 2. Cash and Investments**

The District's investment policies are governed by State statutes. In addition, the District has its own written investment policy. The District monies must be deposited in FDIC-insured commercial banks or trust companies located within the State. The District Treasurer is authorized to use demand accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements, and obligations of New York State or its localities.

Collateral is required for time deposits and certificates of deposit not covered by federal deposit insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and school districts. Deposits and investments at year-end were entirely covered by Federal Deposit Insurance or by collateral held by the District's custodial bank in the District's name. These deposits consisted of:

|   | <u>Carrying<br/>Amount</u> | <u>Bank<br/>Balance</u>         |
|---|----------------------------|---------------------------------|
| Cash and cash equivalents                           | \$ <u>11,364,558</u>       | \$ <u>11,610,217</u>            |

**Note 3. Participation in BOCES**

During the year, the District was billed \$2,588,460 for BOCES administrative and program costs. The District's share of BOCES aid amounted to \$638,599. Financial statements for the Ontario, Seneca, Yates, Cayuga and Wayne County Finger Lakes BOCES are available from the BOCES administrative office at 131 Drumlin Court, Newark, New York 14513-1863.

**Note 4. Capital Assets**

Capital asset balances and activity for the year ended June 30, 2021 were as follows:

**A. Long-Term Debt**

**Serial Bonds/Statutory Installment Bonds**

The District borrows money in order to acquire land, high cost equipment, construct buildings and perform improvements. This enables the cost of these capital assets to be borne by the present and future taxpayers receiving the benefit of the capital assets. These long-term liabilities, which are full faith and credit debt of the District, are recorded in the District-wide financial statements (statement of net position).

The District had the following serial bonds outstanding as of June 30, 2021:

| <u>Purpose</u>                    | <u>Due Date</u> | <u>Interest Rate</u> | <u>Beginning Balance</u> | <u>Additions</u>    | <u>Reductions</u>   | <u>Ending Balance</u> |

During the 2020-2021 fiscal year, the District issued \$3,980,000 in general obligation refunding notes with an interest rate between 1.00% and 4.00% to currently refund \$1,330,000 of an outstanding series 2009 serial bond with an interest rate between 2.50% and 4.00% and \$2,740,000 of an outstanding series 2013 serial bond with an interest rate between 2.00% and 3.50%. The difference between the cash flows required to service the old debt and the cash flows required to service the new debt and complete the refunding totaled approximately \$1,170,000. An economic gain (difference between the present value of the old debt and the new debt service payments) of approximately \$1,075,000 resulted from refunding.

The original issue premiums on bonds have been deferred and recorded as a liability on the district-wide financial statements. The premiums are being amortized using the effective interest rate method over the remaining time to maturity of the bonds. The current year amortization is recorded as a reduction to interest expense on the statement of activities.

Upon default of the payment of principal or interest on the serial bonds of the District, the bondholders have the right to litigate and the New York State Comptroller is required under the conditions and to the extent prescribed by Section 99-b of the New York State Finance Law, to withhold state aid and assistance to the District, and to apply the amount so withheld to the payment of defaulted principal and interest with respect to the serial bonds. The above serial bonds are direct obligations of the District for which its full faith and credit are pledged and are payable from taxes levied on all taxable real property within the District.

**Note 6. Interfund Balances and Activity**

Interfund receivables and payables at June 30, 2021 are as follows:

|                       | <u>Interfund<br/>Receivable</u> | <u>Interfund<br/>Payable</u> |
|-----------------------|---------------------------------|------------------------------|
| General fund          | \$ 676,399                      | \$ 136,340                   |

| Capital projects fund | -                               | 133                          |
| Debt service fund     | 3,873                           | -                            |
| Total                 | <u>\$ 680,996</u>               | <u>\$ 680,996</u>            |

Interfund receivables and payables are eliminated on the statement of net position. The District typically loans resources between funds for the purpose of mitigating the effects of transient cash flow issues. All interfund payables are expected to be repaid within one year.

**Note 7. Interfund Transfers**

Interfund transfers for the year ending June 30, 2021 consisted of the following:

|                       | <u>Transfers In</u> | <u>Transfers<br/>Out</u> |
|-----------------------|---------------------|--------------------------|
| General fund          | \$ 100,000          | \$ 152,628               |
| School lunch fund     | 30,000              | -                        |
| Special aid fund      | 724                 | -                        |
| Capital projects fund | 121,904             | -                        |
| Debt service fund     | -                   | 100,000                  |
| Total                 | <u>\$ 252,628</u>   | <u>\$ 252,628</u>        |

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) move residual cash from closed projects to debt service to be used for debt payments at a later date.

**Note 8. Pension Plans**

**A. General Information**

The District participates in the New York State Employees' Retirement System (NYSERS) and the New York State Teachers' Retirement System (NYSTRS). These are cost-sharing multiple employer public employee retirement systems. The Systems offer a wide range of plans and benefits, which are related to years of service and final average salary, vesting of retirement benefits, death, and disability.

**B. Plan Descriptions**

**Teachers' Retirement System (TRS)**

The District participates in the New York State Teachers' Retirement System (TRS). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits, as well as, death and disability benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. The System is governed by a 10-member Board of Trustees. System benefits are established under New York State Law. Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors and administrators employed in New York Public Schools and

BOCES who elected to participate in TRS. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a Statute. The New York State TRS issues a publicly available financial report that contains financial statements and required supplementary information for the System. The report and additional information may be obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, NY 12211-2395 or by referring to the NYSTRS Comprehensive Annual Financial report which can be found on the System's website at [www.nystrs.org](http://www.nystrs.org).

**Employees' Retirement System (ERS)**

The District participates in the New York State and Local Employees' Retirement System (ERS). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits, as well as, death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. System benefits are established under the provisions of the New York State Retirement and Social Security Law (NYSRSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at [www.osc.state.ny.us/retire/publications/index.php](http://www.osc.state.ny.us/retire/publications/index.php) or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

**C. Funding Policies**

The Systems are noncontributory for the employee who joined prior to July 27, 1976. For employees who joined the Systems after July 27, 1976, and prior to January 1, 2010, employees contribute 3% to 3.5% of their salary. With the exception of ERS tier V and VI employees, employees in the system more than ten years are no longer required to contribute. In addition, employee contribution rates under ERS tier VI vary based on a sliding salary scale. For NYSERS, the Comptroller certifies the rates expressed as proportions of members' payroll annually, which are used in computing the contributions required to be made by employers to the pension accumulation fund. Pursuant to Article 11 of the Education Law, the New York State Teachers' Retirement Board establishes rates annually for NYSTRS.

The District contributions made to the Systems were equal to 100% of the contributions required for each year. The required contributions for the current year and two preceding years were:

|      | <u>ERS</u> |    | <u>TRS</u> |    | <u>Total</u> |
|------|------------|----|------------|----|--------------|
| 2021 | \$ 240,078 | \$ | 584,405    | \$ | 824,483      |
| 2020 | \$ 241,857 | \$ | 539,182    | \$ | 781,039      |
| 2019 | \$ 240,421 | \$ | 630,646    | \$ | 871,067      |

The total unpaid liability for NYSERS and NYSTRS contributions was \$693,543.

**Teachers' Retirement System (TRS)**

The District recognized its proportion of the TRS net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense as of June 30, 2021. The TRS total pension liability was determined by actuarial valuations as of June 30, 2019 and rolled forward to the measurement date of June 30, 2020. The proportion allocation method utilized by TRS was the percentage of each employers fiscal year 2020 contribution to the total contributions to the plan.

**NAPLES CENTRAL SCHOOL DISTRICT**  
**Notes to Financial Statements**

The District's proportionate share of the pension asset of the TRS Plan represents 0.035854% of the total net pension liability, which was a increase of 0.000278 from its proportion as of June 30, 2020. The District has recorded a net pension liability of \$990,746 as of June 30, 2021. The District has recorded its proportionate share of pension plan expense of \$1,345,446 as of June 30, 2021.

*Actuarial Assumptions*

Significant actuarial assumptions used in the TRS valuation were as follows:

|                               |   |
|-------------------------------|---|
| Rate of return on investments | 7.10% compounded annually, net of pension investment expense, including inflation         |
| Salary increases              | Rates of increase differ based on age and gender and are projected between 1.90% - 4.72%  |
| Inflation                     | 2.20%   |
| Decrement tables              | Society of Actuaries Scale MP 2019<br>July 1, 2009 - June 30, 2014<br>System's Experience |

*Expected rate of return on investments*

The long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expense and inflation) for each major asset class as well as historical investment data and plan performance.

The long-term expected real rates of return are presented by asset allocation classification, which differs from the financial statement presentation. Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of the measurement date of June 30, 2020 are summarized in the following table:

| <u>Asset Type</u>     | <b>Long Term<br/>Expected Real<br/>Rate*</b> | <b><u>Target Allocation</u></b> |
|-----------------------|--|---------------------------------|
| Domestic equity       | 7.1 %  | 33.0 %                          |
| International equity  | 7.7  | 16.0                            |
| Real estate equity    | 6.8  | 11.0                            |
| Global equity         | 7.4  | 4.0                             |
| Private equity        | 10.4   | 8.0                             |
| Domestic fixed income | 1.8  | 16.0                            |
| Global bonds          | 1.0  | 2.0                             |
| High-yield bonds      | 3.9  | 1.0                             |
| Real estate debt      | 3.6  | 7.0                             |
| Private debt          | 5.2  | 1.0                             |
| Cash equivalents      | 0.7  | 1.0                             |
|                       |  | <u>100.0 %</u>                  |

\* Real rates of return are net of a long-term inflation assumption of 2.2%.

*Discount Rate*

The discount rate used to measure the TRS total pension liability as of June 30, 2021 was 7.10%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current and non-active plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity of the proportionate share of the net pension liability to changes in the discount rate assumption*

The following presents the District's proportionate share of the net pension liability of the TRS plan, calculated as of the measurement date of June 30, 2020 using the discount rate of 7.10%, per annum (the "current rate"). The table shows what the net pension liability would be if it were calculated using a discount rate that is 1% point lower (6.10%), or 1% point higher (8.10%) than the current rate:

|   | <b>1% Decrease<br/><u>(6.10%)</u></b> | <b>Current<br/>Discount<br/><u>(7.10%)</u></b> | <b>1% Increase<br/><u>(8.10%)</u></b> |

| Naples Central School District's proportionate share of the TRS net pension asset (liability) | \$ (6,258,199)                        | \$ (990,746)                                   | \$ 3,429,983                          |

At June 30, 2021 the District reported deferred outflows of resources and deferred inflows of resources related to the TRS pension from the following sources:

|   | <b>TRS</b>                                    |  |
|---|---|--|
|   | <b>Deferred<br/>Outflows of<br/>Resources</b> | <b>Deferred<br/>Inflows of<br/>Resources</b> |

| Net difference between projected and actual investment earnings on pension plan investments                   | 647,044                                       | -  |
| Changes in proportion and differences between employer contributions and proportionate share of contributions | 88,814  | 70,808                                       |
| Employer contributions subsequent to the measurement date   | <u>584,405</u>                                | -  |
| Total   | <u>\$ 3,441,417</u>                           | <u>\$ 568,233</u>                            |

The components of deferred outflows of resources and deferred inflows of resources, other than the difference between the projected and actual earnings on plan investments, are amortized into pension expense over a 5 year closed period, which reflects the weighted average remaining service life of all plan members, beginning the year in which the deferred amount occurs. The annual difference of the projected and actual earnings on plan investments is amortized over a five-year closed period beginning the year in which the difference occurs. The cumulative amounts of deferred outflows of resources and deferred inflows of resources reported will be recognized in pension expense as follows:

|                            |                          |

**Employees' Retirement System (ERS)**

The District recognized its proportion of the ERS net pension liability, deferred outflows of resources, and pension expense as of June 30, 2021. The ERS total pension liability was determined by actuarial valuations as of April 1, 2020 and rolled forward to the measurement date of March 31, 2021. The proportion allocation method utilized by ERS was the percentage of each employers fiscal year 2020 contribution to the total contributions to the plan.

The District's proportionate share of the pension liability of the ERS Plan represents 0.0056838% of the total net pension liability, which was a decrease of 0.0000566 from its proportion as of June 30, 2020. The District has recorded a net pension liability of \$5,660 as of June 30, 2021. The District has recorded its proportionate share of pension plan expenses of \$164,503 as of June 30, 2021.

*Actuarial Assumptions*

Significant actuarial assumptions used in the April 1, 2020 ERS valuation were as follows:

|                               |   |
|-------------------------------|---|
| Rate of return on investments | 5.9% compounded annually, net of investment expenses                                      |
| Salary scale                  | 4.4% average  |
| Inflation                     | 2.7%  |
| Decrement table               | Society of Actuaries Scale MP-2020<br>April 1, 2015 - March 31, 2020, System's Experience |

*Expected rate of return on investments*

The long-term expected rate of return on the ERS investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class included in the Plan's target asset allocation as of the April 1, 2020 actuarial valuation are summarized in the following table:

| <u>Asset Type</u>            | <u>Long Term<br/>Expected Real<br/>Rate*</u> | <u>Target<br/>Allocation</u> |
|------------------------------|--|------------------------------|
| Domestic equity              | 4.1 %  | 32.0 %                       |
| International equity         | 6.3  | 15.0                         |
| Private equity               | 6.8  | 10.0                         |
| Real estate                  | 5.0  | 9.0                          |
| Opportunistic/ ARS portfolio | 4.5  | 3.0                          |
| Credit                       | 3.6  | 4.0                          |
| Real assets                  | 6.0  | 3.0                          |
| Fixed Income                 | -  | 23.0                         |
| Cash                         | 0.5  | 1.0                          |
|                              |  | <u>100.0 %</u>               |

\* The real rate of return is net of the long-term inflation assumption of 2.00%.

*Discount Rate*

The discount rate used to measure the ERS total pension liability as of June 30, 2021 was 5.9%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based upon those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity of the proportionate share of the net pension liability to changes in the discount rate assumption*

The following presents the District's proportionate share of the net pension liability of the ERS plan, calculated as of the measurement date of March 31, 2021 using the discount rate of 5.9% per annum (the "current rate"). The table shows what the net pension liability would be if it were calculated using a discount rate that is 1% point lower (4.9%), or 1% point higher (6.9%) than the current rate.

**Note 9. Post Employment Healthcare Plan**

**Plan Description and Benefits** - The District administers a Post-retirement Healthcare Benefits Program (the "Plan") as a single-employer defined benefit plan. The District provides medical and dental benefits to retired employees and their eligible dependents. The benefits provided to employees upon retirement are based on provisions in various contracts that the District has in place with different classifications of employees.

The District acquires health insurance through a consortium known as the Finger Lakes Area School Health Plan (FLASHP). Benefits provided by FLASHP are administered by Excellus BlueCross BlueShield and MVP. The FLASHP plan covers medical, dental, and pharmaceutical costs. Health Economies covers dental costs for eligible bargaining units. Specifics and limitations of the coverage offered to retirees is contained in the plan document. Many of the services in the FLASHP plan require co-payments at various levels depending on the nature of the service.

**Total OPEB Liability** - The District's total OPEB liability of \$27,972,748 was measured as of June 30, 2021 and was determined by an actuarial valuation as of July 1, 2020.

**Actuarial Methods and Assumptions** - The method used to calculate the costs of the Plan is known as the Entry Age Normal, Level Percent of Salary. The total OPEB liability in the July 1, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

|                                      |                             |

**Notes to Financial Statements**

---

**Note 10. Risk Management**

**A. General Information**

The District is exposed to various risks of loss related to torts, theft, damage, injuries, errors and omissions, natural disasters, and other risks. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past two years.

**B. Workers' Compensation**

The District incurs costs related to the Wayne-Finger Lakes Area School Workers' Compensation Plan (Plan) sponsored by the Board of Cooperative Educational Services, of Ontario, Seneca, Yates, Cayuga and Wayne Counties and its component districts. The Plan's objectives are to furnish workers' compensation benefits to participating districts at a significant cost savings. Membership in the Plan may be offered to any component district of the Ontario, Seneca, Yates, Cayuga and Wayne Counties BOCES with the approval of the Board of Directors. Voluntary withdrawal from the Plan may be effective only once annually on the last day of the Plan year as may be established by the Board of Directors. Notice of the Intention to withdraw must be given in writing to the Chairman of the Board of Directors and the Treasurer not less than one year prior to the end of the Plan year.

Plan membership is currently comprised of thirteen districts. If a surplus of participants' assessments exist after the close of a Plan year, the Board may retain from such surplus an amount sufficient to establish and maintain a claim contingency fund. Surplus funds in excess of the amount transferred to or included in such contingency fund shall be applied in reduction of the next annual assessment or to the billing of Plan participants. All monies paid to the Treasurer by participants shall be commingled and administered as a common fund. No refunds shall be made to a participant and no assessments shall be charged to a participant other than the annual assessment. However, if it appears to the Board of Directors that the liabilities of the Plan will exceed its cash assets, after taking into account any "excess insurance", the Board shall determine the amount needed to meet such deficiency and shall assess such amounts against all participants pro-rata per enrollee.

The Plan purchases, on an annual basis, stop-loss insurance to limit its exposure for claims paid. The Plan establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related claim adjustment expenses. However, because actual claims costs depend on complex factors, the process used in computing claims liabilities does not necessarily result in an exact amount. Such claims are based on the ultimate cost of claims (including future claim adjustment expenses) that have been reported but not settled, and claims that have been incurred but not reported. Adjustments to claims liabilities are charged or credited to expenses in the periods in which they are made. During the year ended June 30, 2021, the Naples Central School District incurred premiums or contribution expenditures totaling \$49,391.

The Plan is audited on an annual basis and the Plan's financial statements are available at the BOCES administrative offices.

**C. Unemployment**

District employees are entitled to coverage under the New York State Unemployment Insurance Law. The District has elected to discharge its liability to the New York State Unemployment Insurance Fund (the Fund) by the benefit reimbursement method, a dollar-for-dollar reimbursement to the Fund for benefits paid from the Fund to former employees. The District has established a self insurance fund to pay these claims. There were no claims and judgment expenditures of this program for the 2020-2021 fiscal year. The balance of the fund at June 30, 2021 was \$90,353 and is recorded in the general fund as an unemployment insurance reserve. In addition, as of June 30, 2021, no loss contingencies existed or were considered probable or estimable for incurred but not reported claims payable.

**Notes to Financial Statements**

---

**Note 11. Contingencies and Commitments**

**Litigation** - The District is subject to claims and lawsuits that arise in the ordinary course of business. In the opinion of management, these claims will not have a material adverse effect upon the financial position of the District.

**Uncertainty** - The United States is presently in the midst of a national health emergency related to the COVID-19 virus. The overall consequences of COVID-19 on a national, regional and local level are unknown, but has the potential to result in a significant economic impact. The impact of this situation on the District and its future results and financial position is not presently determinable.

**Note 12. Federal and State Funded Programs**

The District participates in a number of Federal and New York State grant and assistance programs. These programs are subject to financial and compliance audits by the grantors or their representatives. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

**Note 13. Tax Abatements**

As of June 30, 2021, tax abatement programs include abatements on property taxes. All property tax abatements are performed through Payment In Lieu of Tax (PILOT) agreements made by various Towns. The PILOT agreements are made to support electric and recreation. Total taxes abated by the towns in each of these categories for the fiscal year ended June 30, 2021 are as follows:

|            |    |         |
|------------|----|---------|
| Electric   | \$ | 123,632 |
| Recreation | \$ | 219     |

**Note 14. Future Implementations of GASB Pronouncements**

The Governmental Accounting Standards Board has issued the following pronouncements which will be implemented in the years required. The effects of the implementation of these pronouncements are not known at this time.

Statement No. 87 - *Leases*. Effective for fiscal years beginning after June 15, 2021.

**Note 15. Subsequent Events**

Management has evaluated subsequent events through the date of the report, which is the date these financial statements were available to be issued.

**Note 16. Restatement of Net Position**

For the fiscal year ended June 30, 2021, the District implemented GASB Statement No. 84, *Fiduciary Activities*. The implementation of this Statement resulted in the restatement of fiduciary net position. The implementation resulted in an increase in beginning net position of \$294,624.

The District's net position at June 30, 2020 has been restated as follows:

|   |                       |
|---|-----------------------|
| Net position beginning of year - as previously stated | \$ (4,976,381)        |
| GASB Statement No. 84 implementation                  | <u>294,624</u>        |
| Net position beginning of year - as restated          | \$ <u>(4,681,757)</u> |

The miscellaneous special revenue fund statement of revenues, expenditures and changes in fund balance has also been restated due to the implementation of GASB Statement No. 84 resulting in an increase in the beginning fund balance of \$294,624 as of July 1, 2020.

**Notes to Required Supplementary Information**  
**June 30, 2021**

---

**Note 1. Budgetary Comparison Schedule and Budgetary Basis Reporting**

An operating budget for the general fund is adopted prior to the beginning of each year on the modified accrual basis of accounting. The general fund is the only fund for which a budget is legally required by New York State Municipal Law and it must be approved by the Board of Education and the voters of the District. Budget amendments require approval by the Board of Education. The budgetary comparison schedule has been prepared on the legal level of budgetary control. Therefore, the District's budgetary comparison schedule presents expenditures by department, with separate identification of personnel object codes, where applicable. The District prepares and reports its budgetary information in accordance with accounting principles generally accepted in the United States of America.

**Note 2. Schedule of Changes in the District's Total OPEB Liability and Related Ratios**

The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated. Additional information for the other postemployment benefit obligation, latest actuarial valuation and actuarial assumptions and methods can be found in the notes to the financial statements.

The Schedule of Changes in the District's Total OPEB Liability and Related Ratios is presented to illustrate the requirements to show information for 10 years. However, until a full 10-year trend is compiled, the District will present information for those years for which information is available.

**Note 3. Schedule of District's Proportionate Share of the Net Pension Asset/Liability and Schedule of Employer's Contributions**

The information presented in these required supplementary schedules was determined as part of the audit of the New York State Employees' Retirement System Plan (NYSERS) and the New York State Teachers' Retirement System (NYSTRS). Additional information for the pension schedules can be found in the notes to the financial statements.

The Schedules of District's Proportionate Share of the Net Pension Asset (Liability) are presented to illustrate the requirements to show information for 10 years. However, until a full 10-year trend is compiled, the District will present information for those years for which information is available.

**NAPLES CENTRAL SCHOOL DISTRICT**  
**Notes to Schedule of Expenditures of Federal Awards**  
**For the Year Ended June 30, 2021**

---

**Note 1. Basis of Presentation**

The accompanying schedule of expenditures of federal awards presents the activity of federal award programs administered by the District, which is described in Note 1 to the District's accompanying financial statements, using the modified accrual basis of accounting. Federal awards that are included in the schedule may be received directly from federal agencies, as well as federal awards that are passed through from other government agencies. The information in this schedule was prepared on the accrual basis of accounting and is presented in accordance with the requirements of *Title 2 U.S Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

The basis of accounting varies by federal program consistent with the underlying regulations pertaining to each program.

The amounts reported as federal expenditures were obtained from the federal financial reports for the applicable program and periods. The amounts reported in these reports are prepared from records maintained for each program, which are reconciled with the District's financial reporting system.

**Note 2. Subrecipients**

No amounts were provided to subrecipients.

**Note 3. Indirect Costs**

Indirect costs may be included in the reported expenditures, to the extent that they are included in the federal financial reports used as the source for the data presented. The District has elected not to use the 10 percent de minimus indirect cost rate as allowed under the Uniform Guidance. Matching costs (the District's share of certain program costs) are not included in the reported expenditures.

**Note 4. Non-Monetary Federal Program**

The District is the recipient of a federal award program that does not result in cash receipts or disbursements termed a "non-monetary program". During the year ended June 30, 2021, the District received \$18,599 worth of commodities under the National School Lunch Program (Assistance Listing #10.555).

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Education  
Naples Central School District  
Naples, New York

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Naples Central School District as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Naples Central School District's basic financial statements and have issued our report thereon dated October 7, 2021.

### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Naples Central School District's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Naples Central School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Naples Central School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weakness may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Naples Central School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as 2021-001.

## **District's Response to Findings**

Naples Central School District's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Naples Central School District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the Board of Education  
Naples Central School District  
Naples, New York

### **Report on Compliance for Each Major Federal Program**

We have audited Naples Central School District's compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of Naples Central School District's major federal programs for the year ended June 30, 2021. Naples Central School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

### **Management's Responsibility**

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable of its federal programs.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on compliance for each of Naples Central School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable of financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Naples Central School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Naples Central School District's compliance.

### **Opinion on Each Major Federal Program**

In our opinion, Naples Central School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

## Report on Internal Control Over Compliance

Management of Naples Central School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Naples Central School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Naples Central School District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**FINDINGS - FINANCIAL STATEMENT AUDIT**

**Reference: 2021-001**

**Requirement**

NYS Real Property Tax Law § 1318 limits the amount of unexpended surplus funds a District can retain to no more than 4% of the District's budget of the General Fund for the ensuing fiscal year. Nonspendable and restricted fund balance of the General Fund are excluded from the 4% limitation. Amounts assigned for the subsequent year and encumbrances are also excluded from the 4% limitation.

**Finding**

The District's unassigned fund balance at June 30, 2021, after excluding amounts assigned for the subsequent year end encumbrances, was in excess of the New York State Real Property Tax Law §1318 limit. For the fiscal year ended June 30, 2021, the District's unassigned fund balance is \$2,209,847 which is 10.17% of the 2021-2022 voter approved General Fund budget.

**District's Response**

Due to the COVID pandemic the District took a cautious approach to the 2020-2021 school year. As a result, the District underspent the budget and plans to utilize unassigned fund balance to create and fund a capital reserve fund and a capital bus reserve fund during the 2021-2022 school year. While federal stimulus funds are available, there are specific items those funds need to be used for. The District is continuing to take a cautious approach as adjustments may need to be made to transportation, staffing, cleaning processes and potential substitute teacher costs.

**Requirement**

NYS Real Property Tax Law § 1318 limits the amount of unexpended surplus funds a District can retain to no more than 4% of the District's budget of the General Fund for the ensuing fiscal year. Nonspendable and restricted fund balance of the General Fund are excluded from the 4% limitation. Amounts assigned for the subsequent year and encumbrances are also excluded from the 4% limitation.

**Finding**

The District's unassigned fund balance at June 30, 2020, after excluding amounts assigned for the subsequent year end encumbrances, was in excess of the New York State Real Property Tax Law §1318 limit. For the fiscal year ended June 30, 2020, the District's unassigned fund balance is \$1,577,354 which is 7.44% of the 2020-2021 voter approved General Fund budget.
